

## Already Deployed a Secure Messaging Solution?

*No Worries – We Still Love You ...  
... and We've Got You Covered with*

## SECUREConnect™

As the Dependable Choice in critical messaging for more than 30 years, we understand your need for choice better than anyone. So regardless of who you use as your Secure Messaging provider, now you can integrate it with your American Messaging critical messaging device. With Secure Connect, your messages will now arrive on **both** your American Messaging device and your secure messaging application.

## It's That Simple!

### Benefits of Secure Connect:

- **Continuity.** Keep your existing messaging device numbers, protocols, and critical messaging workflow intact
- **Caution.** Adding Secure Connect ensures wireless messaging technology redundancy, protection and peace of mind
- **Convenience.** Device consolidation opportunities when cell phone data/WiFi coverage is trusted
